UltraDownloader - Authorized Sample PDF

This PDF is served by the secure download endpoint:
GET /api/v1/files/download/<filename>?ticket=<signed-ticket>

It exists so the Download button can be verified end to end:
1. Clicking Download opens a real HTTP transfer.
2. Chrome lists it in Ctrl + J.
3. The saved file opens in any PDF reader.

Correct filename, MIME type (application/pdf) and Content-Length
are all taken from trusted server metadata.
